

K-Love serves me Belinda Thibedeau as resident of Eagle River, Alaska by being such a wonderful inspiring and encouraging station. The station reaches out to several people every day I'm sure of, letting them know there's a God that's indeed loves them despite all they may have done in the past and also in such a cruel world that we are currently living in. It's very helpful to have such an inspiring encouraging radio station that will pray for you and help you in your in every need by seeking the higher one.

The effect on the local community if this station were to be replaced by a LPFM bradcaster would be devastaing. The station reaches out to people every day who are in desperate need.

K-Love is of the publics interest because it provides uplifting music and encouraging words to people who are in need of a helping hand or a listening ear each and every day.
